Hand Sanitizer Donation

In March of this year there was a call made to craft distillers all over the country to assist in the mitigation of SARS-CoV-2 virus by switching their distillation of small batch spirits to production of hand sanitizer. We at Rush Creek Distilling amongst many others only trying to do our small part answered that call. We produced thousands of gallons of hand sanitizer and donated over half of it to those in need.

This week we shipped nearly two thousand gallons of hand sanitizer to the Northern Illinois Food Bank. This hand sanitizer will be distributed to almost fifteen thousand needy families in our community. The pride we take in distilling our quality craft spirits is almost insignificant compared to the honor we feel being able to help those amongst us stay safe and healthy this holiday season.

At Rush Creek we hope that our Nation continues to persevere together, and when we come out the other side of this we will be stronger together. Stay Well and keep your spirits up.
